Subject: Thank you

Dear Doctor Kislinger:

First of all, I must thank you for all the medical assistance from your office dating back several decades treating my Dad - Louis Ho for his eye conditions. As you may have remembered that he was your patient at one time many years ago.

My dad passed away last month at the age of 88. While it was sudden, he went peacefully without any pain and my mom was with him at home.

In my opinion, he received the highest quality care at your office. For that reason he was able to drive until he was 85, even with his severe glaucoma conditions. Your staffing are always very kind to my Dad especially he was very slow getting into the formality of check up towards the end. Doctor Vu continue to monitor his conditions very closely while sometimes even monthly to ensure vision is not impaired with his other condition Dementia.

Since you are my Doctor at one time as well, I remember you not only as a good Doctor but caring for your patient's needs and that culture is apparent in your office. I have always found everyone is dedicated to their patients and for that I sincerely thank you all!

Sincerely,

Oliver [REDACTED]
